

Announcement

YOKOHAMA (Japan) and WAGENINGEN (The Netherlands), February 6, 2015

Japan Office Opened to Develop the Market in Japan for IsoLife's Stable Isotope Labelled Phytochemicals and Plant Products.

We proudly present our Japanese website: www.isolife.jp, prepared with the excellent help of Mr. Shintaro Inazawa, former President of SI Science Co., Ltd. (www.si-science.co.jp/global/index.html) and Visiting Professor at Japan Advanced Institute of Science and Technology (www.jaist.ac.jp/index-j2.shtml), from 2015 acting as Representative of IsoLife's Japan Office.

IsoLife has opened its Japan Office, headed by Mr. Inazawa, in January 2015 in order to help developing new markets for our innovative stable isotope products and labelling services for our end-users in Life Sciences & Technology research in Japan.

We look forward to a fruitful and respectful cooperation between both parties, in the spirit of our befriended royal families
